### CIGARETTE

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

J. M. Draper, of Draper & Draper Co., left first of the week for St. Louis, where he will spend several days buying goods for the spring season. They are expecting a big business this spring and will lay in full line of goods for every department of their store.

B. L. Quarles, of Quarles & McCawley Co., is in St. Louis this week buying spring merchandise. He will visit other leading markets on this trip. From what we can hear, business is going to pick up in this town right soon.

The program rendered at the college last Tuesday evening by the pupils of the different grades was enjoyed by a house full of people. Every number on the program was highly entertaining, and very appropriate, being given to honor the birth of Washington.

The many friends of Mrs. Sarah Darwin will be glad to learn that she is very pleasantly situated on a chicken ranch two miles from Sacramento, Calif. She now has 400 White Leghorn hens and gets 256 eggs daily. She has 1700 eggs setting, which will hatch this week.

## LOCALS

Dr. H. P. Loftis is confined to his room with a severe cold.

Will Gore, of Kentucky, after week's visit to his sister, Mrs. R. S. Dudley, has returned home.

Miss Ada Lynn and Mrs. Dow Loftis of Roaring river, were visitors at the Sentinel office Wednesday.

Frank Gailbreath went to Nashville Wednesday on account of the death of his cousin, Charlie Gailbreath.

Miss Lola Hughes was called to Cookeville last Friday afternoon on account of the illness her father. She returned Monday.

Don't fail to read the L. P. & J. W. Gillem ad on this page. They have a good farm near Cookeville and in one mile of the Holliday school, which they want to sell.

Senator W. A. Overton was in town Wednesday, on account of an extra session of the county court which was called to elect a tax assessor to fill out the unexpired term of W. T. Hargis, resigned.

The entertainmet which was to have been given Saturday night Feb. 19th, was postponed on account of inclement weather and will be given Saturday night of this week. Don't fail to attend.

L. W. Wooten and T. C. Young, local contractors, are making things take on a much better appearance in the courthouse by applying a coat of paint to the stairways and windows and other places where needed.

T. J. Draper lost a fine hog a few days ago. An examination showed that she died of a gunshot wound. Mr. Draper has no idea as to who did it or why they did it. He gave \$40. for her a short time ago and prized her very highly.

### Charles C. Gailbreath.

The news of the death of Charlie G. Gailbreath, which occurred at his home in Nashville, Tenn., Wednesday, Feb. 23d, was received with great sorrow by his relatives and friends in Gainesboro and Jackson County. He had been in delicate health for a number of years, but was, most of the time, able to follow his occupation until about five weeks ago, when he took his bed. He made a brave fight for health, but being defeated, suffered patiently to the end.

He is survived by his wife, who was Miss Vida Simmons before marriage, and a daughter Margaret Helen Gailbreath, to whom he was greatly devoted, and stepmother Mrs. Dona Gailbreath, of Granville, a half sister, Miss Bonnie Gene Gailbreath of Nashville, and two half brothers, Henry of Louisville, Ky., and Tom who is a student in military school at Sweetwater, Tenn., and a number of close relatives.

Funeral service was held Thursday morning at 10 o'clock at his residence, 1311 Gartland ave., Nashville, conducted by Elder Russell S. King. Interment in Mt Olivet cemetery. The following friends acted as pallbearers. Dr. J. O. Cummins, H. Frank Cooper, H. L. Sylar and Dr. Geo. M. Hite, Jr.

Charlie was known all over this upper Cumberland section, being born and raised in this county, and having represented different wholesale firms of Nashville, and was the time of his death, with Belknap Hardware Company, of Louisville. He was 36 years old, and a son of late Thomas C. Gailbreath, better known as "Little Tom Gail-

breath," who preceded him to the grave several years ago. He, like his father, possessed those traits of character that won him friends wherever he went.

We join his loved ones in extending sympathy to the bereaved family.

### A Baby's Meditation.

(By Grandmother)  
I am so sad today,  
I feel like I want to cry,  
Grandma has gone away,  
I don't know why.

Papa and mama are here,  
And aunt Addie too;  
But I want grandma dear,  
And she is gone, boo hoo!

I want to put my finger in her eye  
When she hasn't got her glasses on;

I want her to hold me high,  
But, boo hoo! she is gone.

Grandma liked to see me walk,  
And she thought I was very wise.

She could translate baby talk,  
And understand all my Ti, Ti's.

When I held my hands up and said, Ti, Ti,  
Grandma knew I meant, up high.

When, with covered eyes, I yelled, Ti, Ti,  
She understood I was playing peep eye.

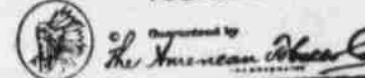

And when I waved and shouted Ti, Ti,  
That meant either, "Hello, or goodbye."

And so on, through my vocabulary,  
Here's hoping, that a grandma, so exemplary,  
Will sometime come back again.

## A Well Prepared Seed Bed Produces Bigger Crops

When you can make a better seed bed simply by using a disc harrow that does better work, pulls lighter, and lasts longer, why not do it? We can show you just such an implement—one that can be adjusted instantly to penetrate and pulverize the soil thoroughly its entire width in dead furrows, hard and soft ground, and over ridges, as well as on level land.

### JOHN DEERE MODEL "B" DISC HARROW

Next Saturday, or the first time you are in town, drop in and look at the John Deere Model "B" Disc Harrow which we have set up. Get on the seat and operate the levers. Notice that there is a lever for angling each gang backward or forward so as to make the pull on the horses just right when part of the harrow is working in soft ground and part in hard ground.

And remember to ask us about the third

lever. That is the feature you will appreciate because it enables you to give the required pressure to the inner ends of both gangs to make the harrow penetrate at the same depth its entire width in dead furrows or over ridges.

We want you to notice also the neat, substantial construction of this harrow. You will readily understand why it lasts longer.
